

## A Monster Description

I am a pink monster. My head is a wide oval. I have two stripy horns, which are really good for catching falling coconuts. My two eyes are on either side of my face. They are large and round. I always win staring competitions with my red pupils. In the centre of my face is my skinny nose, which looks like a worm. Under my nose is my closed mouth. Sticking out of my mouth are two pairs of small white fangs. Don't worry I never bite anyone. My ears are very floppy and hang down low. When I get scared I can use them to cover my eyes. My tummy is as round as beach ball because I eat too many coconuts and it is covered in brown splotches. I have two little arms and two feet that are like flippers. [Can you draw what you think I look like?](#)
